

FLOOD BAGS & BARRIERS

Absorb, Contain & Divert Water

Quick Dam Flood Bags & Barriers contain a super absorbent powder that activates & swells when wet.

- ◆ Ready to use, activates with water
- ◆ Compact & lightweight
- ◆ No sand or labor needed
- ◆ Reusable & lasts for months
- ◆ Reactivates when wet & evaporates when dry
- ◆ Degrades naturally after several months of ongoing use
- ◆ Flood protection up to 3.5in high & then stackable

FLOOD BARRIERS:

- ◆ Continuous length provides uninterrupted protection
- ◆ Built in wedge prevents rolling out of position
- ◆ Available in 5ft, 10ft & 17ft lengths

FLOOD BAGS:

- ◆ To increase wall height, stack in a pyramid formation
- ◆ Each bag grows to 32lbs, 24in x 12in x 3.5in

Activates & grows when wet
